Issue 2

March 2015

Key the Rev Head

On Wednesday 11 March Kevin Fry bought in his sprint car to do some work on it. This created a huge interest, and when Kev fired it up everyone in the whole street new there was a mean machine sitting there waiting to get on to the race track.

Old 3

Safety Tip of the
Month 3

His machine has a 1,000 cc Suzuki motor bike engine which he used to race in the 1litre sprint car category. Kev still displays the old machine at speedway meets and he keeps up with the 2 litre vehicles which cost twice as much.

Good on ya Kev, it's great to see the pride you have in your sprint car. We hope to see you racing at Kingaroy one night.

Feature Member

Keith Hatchett seems to be always there and asking “what is it that is required”.

Keith is a retired Cabinet Maker and by the looks of our new kitchen, he was and still is a great Cabinet Maker. Not only has he re-built the kitchen he has been involved with most of the projects under way in the shed.

Keith is a shed Manager and a Trainer.

I call him the quiet achiever.

Thank you Keith

Sixth of Our Values

“The right to have an opinion is not overrun by the need to be heard and convince others to agree with us.”

Shed Managers Report

Terry reports that the projects on the table are progressing as well as can be expected.

Pat has had a small setback with his table and bench seat but most of the timber has been cleaned and ready to assemble.

Mel has stripped and cleaned up the windmill gear box.

There is a team working on bagging kindling wood for sale over Easter.

David has started cleaning and painting the wagon wheels. It looks like David may have secured two more horse drawn vehicles too.

John is working furiously trying to keep up with all the leather work, repair jobs.

Twelve Months Old

THIS IS OUR BIRTHDAY MONTH

On the 29th of March 2014 we held our very first meeting in David Mollenhauer's Shed Rewald St.

It's good to see all the men in the photo are still very active in our club today.

Currently there are 43 members, and it's very pleasing to see so many

members attending our Wednesday meetings.

Last Wednesday we had 26 members, what a commotion at smoko.

So much socialising so much work being planned and so many involved and working on their projects.

Safety Tip for the Month

Always be careful of everything around you as soon as you walk in through the gates.

This year as at 12 march there has been 32 fatalities while working.

Don't use any electrical equipment that looks faulty. Even if it has been checked and tagged.

Remember to clean up any spills or

call a member over to guard area while you find the proper equipment or put a barrier around the area for safety.

Three causes of accidents

- I didn't **SEE**
- I didn't **THINK**
- I didn't **KNOW**

How safe is this?
